Reasons for Allowance/Examiner's Comments

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: none of the prior art either alone or in combination disclose or teach of the claimed combination of limitations to warrant a rejection under 35 USC 102 or 103. Specifically, in reference to independent claim 1, none of the prior art either alone or in combination disclose or teach of the claimed zoom lens system specifically including, as the distinguishing features in combination with the other limitations, the zoom lens system satisfying the two mathematical conditions claimed. Specifically, in reference to independent claim 12, none of the prior art either alone or in combination disclose or teach of the claimed zoom lens system specifically including, as the distinguishing features in combination with the other limitations, the zoom lens system satisfying the three mathematical conditions claimed.

Examiner's Comments

For applicant's information, in "Applicant's Arguments" received November 6, 2007, applicant states on page 9 that "the table values in the gray background do not satisfy the conditions of claims 1 and 12". When viewing the tables of pages 8 and 9 under normal magnification, the values in gray are very difficult to make out. However, upon magnifying the tables of pages 8 and 9, the values within the gray boxes were able to be seen and the examiner was able to confirm applicant's arguments.
